TEUTONIC WEDGE IS IN DANGER IN FRANCE

LONDON, Jan. 7.—The French War Office asserts that the eastern end of the German line is being pushed backward at various places. In today's official statement, mention is made of an important advance in the Woivre district resulting in the capture of a portion of the German first line.

An advance in this district, if continued, might threaten the German wedge in the French line, which reaches southward to St. Mihiel.

In Upper Alsace the forward movement of the French is said to have continued, but the German office asserts that French attacks have been repulsed.

London, January 7.—Neither Turkey nor Germany has conceded the defeat of Turkish armies in the Caucasus, as claimed officially in Petrograd.

As further details of this fighting are received in London it would appear that this reported Turkish disaster has been as complete as that suffered by any forces since the outbreak of the war.

In Poland the Germans, apparently, are no nearer Warsaw, and there is little alteration in the battle front extending from the Baltic to the Carpathians.

The Russians seem to be still concentrating their main effort in the Carpathian passes.

At the same time they are continuing a vigorous offensive in Bukovina. The occupation of this Austrian territory, populated as it is, largely by Roumanians, may soon exert, in the opinion of British observers, a powerful influence throughout Europe, as bringing the Balkan situation to a head.

In the western arena of military activity the allies have varied their tank attacks, which recently brought them success in the sand dunes of Flanders, and in Alsace, by intensifying the pressure from Rheims to the Lorraine frontier, where some ground has been gained.

The Germans, meanwhile, have sought to repair the damage done to their wings. This has resulted in the recovery of some ground near Steinbach, in Alsace.

An official Turkish announcement makes no mention of the disastrous defeat Russia states was inflicted on Turkish forces which invaded the Caucasus. The report speaks of minor victories over the Russians by Turkish forces, which penetrated northern Persia, and of an indecisive battle between Turkish and Russian warships on the Black Sea.

Activity of Germany's Zeppelins along the French coast has revived conjecture as to a possible raid on England by these huge aircraft. Several of the dirigibles are reported to have appeared near Dunkirk and are said to have turned toward the English coast.

80,000 HERD TO BE KILLED

Chicago, Jan. 7.—A prize herd of spotted cattle owned by Enos M. Barst, a wealthy manufacturer, and valued at \$80,000, have been ordered by government inspectors, it was announced today, because several of the cattle were found to be affected with foot and mouth disease.

77 STILL IN HOSPITALS

By Associated Press.

New York, Jan. 7.—Seventy-seven victims of yesterday's subway accident were still in hospitals today, recovering from their injuries. Most of them were men; some were women who had been mauled in the stampede for the street. All suffered from the effects of smoke or bruises or cuts.

They were the ones who had fared worst in the panic. None were expected to die; all, it was thought, would be discharged in a day or two.

BOY MURDERER GETS RELEASE

By Associated Press.

Columbus, O., Jan. 7.—Governor Cox today commuted to ten years the life sentence of Don Hazel, Toledo boy, who killed his mother in 1908 and was sent to the penitentiary for murder in the first degree. The boy will be released in June.

The State Board of Pardons recommended his unconditional release nearly a year ago, but no action was taken by the Governor then. He is 24 years old and was only 16 when sentenced to the penitentiary.

CRUELTY NOT EXAGGERATED

By Associated Press.

Paris, Jan. 7.—The commission appointed on September 23, to inquire into accusations that German officers had acted "savagely and inhumanly" against French civilians and soldiers, says, in its report made public today by the French cabinet:

"We must conclude that there never has been a war between civilized nations of so savage and ferocious a character as that waged upon our soil by our implacable adversary.

"Pillage, ravishing, burning, murder are ordinary practices of our enemy, and facts collected in many cases prove that the Germans claim that the killing of civilians was due to firing of the population are unfounded."

"We found proof of the existence in the German army not only of a systematic plan for burning villages,

but the possession of elaborate material for this purpose, including torches, grenades, fuses, oil sprayers, sticks of inflammable material and sacks of tablets composed of very inflammable compressed powder.

"Ravishings of women and girls were so frequent that the number of cases established was only a small part of those which might have been investigated," the commission says. The victims of these odious acts generally refused to testify because it would compromise their futures."

The cabinet has been withholding the report because, it is said, it did not desire further to excite public feeling. The conclusions of the commission form about 20 newspaper columns.

SAYS CARDINAL NOT ARRESTED

By Associated Press.

London, Jan. 7.—The German military governor of Belgium issued an official denial of report that Cardinal Mercier, the Belgian member of the Sacred College, has been arrested by the German authorities.

Cardinal Mercier was reported, unofficially, to have been arrested on account of a pastoral letter, in which he was said to have advised Belgian civilians not to recognize the authority of the German administration of Belgium.

While these reports were doubted at the Vatican an inquiry was instituted by Pope Benedict with the idea of making a protest to the German government, according to Rome dispatches, should the arrest of the Cardinal be established.

WOULD ABOLISH ELECTRIC CHAIR

By Associated Press.

Chicago, Jan. 7.—Bills abolishing capital punishment in murder cases will be introduced in the Illinois legislature and 37 other states within the next few weeks by the Anti-Capital Punishment Society of America, it was announced today.

The society is planning a nationwide fight on hanging and electrocution.

OTHERS TO KEEP "OPEN SHOP"

Bellaire, O., Jan. 7.—Announcement was made here today that the Younghighy and Ohio Coal Company, the Rail and River Coal Company and the United States Coal Co. would next week offer employment to their 5,500 striking men on an open shop basis.

Those of the miners, it was said, who would refuse to go to work would be evicted from the company houses.

WHAT WAR IS DOING TO BRITISH

By Associated Press.

London, January 7.—The effect of the war on England's foreign trade was shown in a striking manner in the yearly returns of the Board of Trade, announced today.

Exports in 1914 decreased more than \$475,000,000, as compared with the preceding year. Imports decreased more than \$355,000,000.

BRYAN MAKES ATTITUDE PLAIN

By Associated Press.

Washington, Jan. 7.—Secretary Bryan today informed Count Bernstorff, the German ambassador that the United States in maintaining strict neutrality, must refrain from officially investigating or commenting upon his charges that dum-dum bullets were being furnished from this country to the allies.

Secretary Bryan told the ambassador, however, that if he could furnish proof that forbidden war materials were being shipped by American firms, President Wilson would use his influence to stop the traffic without involving legal or international questions.

In a letter to Count Bernstorff, Secretary Bryan referred to denials of American manufacturers to his recent charge of dum-dum bullets and riot guns being furnished to the allies. The letter reads in part:

"Your excellency also states that the British government has ordered from the Winchester Repeating Arms Company 20,000 riot guns and 50,000,000 buckshot cartridges for use in such guns. The company's letter states that the company denies that it has received an order for such guns and cartridges."

UNCONSTITUTIONAL

By Associated Press.

LONDON, JAN. 7.—ENGLAND'S REPLY TO WASHINGTON'S REMONSTRANCE AGAINST BRITISH INTERFERENCE WITH AMERICAN SHIPPING WILL BE ALTOGETHER CONCILIATORY, IT IS SAID, AND APPARENTLY ALL DANGER OF FRICTION BETWEEN THE TWO NATIONS HAS DISAPPEARED.

MOVIN' TIME

By Associated Press.

Columbus, O., Jan. 7.—The State House had the appearance of moving day today, though the change of administration does not actually come until Monday.

The executive departments of the secretary of state, treasurer, attorney general and adjutant general particularly were busy winding up their affairs and putting them in shape for their successors.

In the executive offices, George F. Burba, secretary to Governor Cox, already had returned to his home and his editorial desk in Dayton.

Not more than a dozen legislators were in evidence about the assembly chambers today.

Speaker Conover was locked up in his private office, at work on lists of House committees. He expects to announce them early in the week.

Deputies and clerks in the office of Budget Commissioner Heffernan have been working until midnight for a week in order to complete the budget draft to be presented to Governor Cox Saturday night.

MORE CHEAP HOTELS TO BE BUILT

By Associated Press.

Chicago, January 7.—Stimulated by the success of the Rufus F. Dawes hotel, in its first year as a shelter for men who can pay only a nominal sum for board and lodging, it was announced that similar hotels are to be built in other cities.

The Rufus F. Dawes hotel was erected by Charles G. Dawes, as a monument to the memory of his son. It stands in a crowded district and in its first year housed 179,000 men and served 59,000 meals.

The charge for a bed is 5 cents a night. On its bill of fare hash and beans can be had for 3 cents; coffee for 2 cents and other articles of food for 2 and 3 cents.

SOLDIER'S FAMILY FOUND DEAD

By Associated Press.

Montreal, Canada, Jan. 7.—Mrs. Robert Van Loy, wife of a Belgian reservist, and her three children were found strangled to death at their home here today. The police this afternoon had no clue to the murderer.

Her husband joined the first contingent of Belgian reservists who left Canada to fight for their country.

Neighbors, alarmed because there had been no signs of life for two days at the Van Loy home, notified the police, who found the woman and her children in bed. Apparently they had been dead for two days.

MURDEROUS WEAPON FOUND IS TURNED OVER TO POLICE

The weapon which ended the life of Nannie Bird, in the French Flats, Monday night, is now in the hands of the police, and two chambers of the murderous gun are empty, the other four containing loaded shells.

The gun was placed in the hands of Patrolman Bell about eight o'clock Wednesday night, by General Bass, colored, a resident of Water street, in whose possession the gun had been since early Tuesday morning, according to a statement made to the police by William Prichet, colored, who found the gun and turned it over to Bass with instructions to give it to the police.

The weapon was found under a pile of rails about 100 yards north of the

French flats, and along the C. H. & D. railroad.

The gun is a 44-40 Colts Frontier, six shooter, model 1875, and is very heavy. The gun has a hand ejector, and the balls in the magazine were flat nosed or veritable "dum-dums". The loaded shells are more than one and one-half inches in length, and a more murderous weapon could hardly be imagined.

The gun has been the property of Beverly Patterson, and is some 40 years old.

According to Bass he had locked the gun up, and Wednesday evening read in The Herald that the man who had the gun in his possession was liable to be drawn into the affair unless it was surrendered at once, he immediately surrendered the weapon to the police.

BELGIAN HORSES COMING TO OHIO

Notwithstanding that strict orders have been issued by the military authorities against the shipping of horses out of France during the war, yet a consignment of 17 Belgian stallions is now enroute to the importing firm of Brown & Ayres, Hillsboro, Ohio. Dr. H. M. Brown was in Belgium when war broke out, and personally selected many of the animals. The very friendly feeling entertained for America and Americans by the government and people of Belgium, because of this country's great generosity in their time of distress is so manifest that some shipments to the American breeders are being allowed. Fortunately the Buckeye state is among the beneficiaries of this generous course on Belgium's part. At the very beginning of the present hostilities in Europe many of the best breeding animals were hurried out of Belgium into French territory, and thus saved from destruction.

LOCAL WOMAN RECOGNIZED

The great event at the Madison Home for wives and daughters of the G. A. R., was on Sunday afternoon, when the Department of Ohio W. R. C. committee gave their annual service. It was very beautiful and greatly enjoyed and appreciated by the members. The house had been very beautifully decorated for Xmas, large Xmas bells and many small ones were hung in profusion in all corridors of both buildings, arcade, dining rooms and reception room. In the latter was the tree, which was certainly gorgeously beautiful, it reached from floor to ceiling and spread out nearly from door to door. The dining room was a thing of beauty festooned with Christmas paraphernalia, bells and glistening cords. Mrs. Elizabeth Carpenter of Washington C. H., chairman of the Christmas committee, represented our lady Martha Washington; Mrs. Viola Galbraith, Dept. I. & L., the sweet singer of Toledo, was Columbia; Mrs. Jeanette M. Mann, Dept. Pres. of the W. R. C. of Ashland, was Lady Bountiful; and Mrs. Lois M. Knauff, Past Dept. President, was Mrs. Santa Claus; all dressed to represent their part. There were gifts for all. Mrs. Galbraith favored with several appropriate selections. Mrs. Jennie Griswold and Miss Mildred Sharpe gave several duets, (Mrs. Griswold was accompanist for Mrs. Galbraith also). Mrs. Carpenter is a fine electionist, reciting first an original poem, her last selection (by request) was rendering the beautiful Twenty-third Psalm.

Much credit is due to the Department President and her efficient committee for the most delightful entertainment ever given for the members. —The Lake County Weekly Herald, Painesville, O., Dec. 31st.

POST MAY OFFER BILL TO OBTAIN DEFENSE FUNDS

A Washington dispatch telling of Congressman J. D. Post's intention to introduce a bill to obtain \$250,000,000 with which to improve the United States navy and improve the national defenses generally, is given in full as follows:

"Representative J. D. Post is considering the introduction of a bill providing for the sale of \$240,000,000 of Panama bonds, the proceeds to be expended in the betterment of the United States navy and the improvement of the coast defenses of the United States.

Post believes that the navy and the coast artillery should both be strengthened materially.

"He believes that the sale of the bonds and the application of the proceeds to the navy and coast artillery extension would induce a degree of prosperity in the United States, especially throughout the East, which has been noticeably absent in the last two months."

LOCAL TALENT TO GIVE ANOTHER PLAY

Some two years ago a group of young men in the city organized the Choral club, and under the management of Mr. W. O. Deheart made considerable progress in the line of vocal music.

The organization purchased a piano on the installment plan, and they succeeded, by home talent entertainments, in paying a snug portion of the total cost of the instrument.

When the organization eventually disbanded the disposition of the piano came up, and another organization, headed by Mr. Walter Sprenger and Mr. Ray F. Zaner, took up the matter of paying the remainder due on the instrument, which is then to become the property of the Y. M. C. A.

In carrying out this plan, home talent entertainments are being produced to obtain the funds, and the next play will be given at the Empire theater, January 15th, and will be a mirth-provoking one entitled "The Mystery of Savage Land."

Some 20 characters will take part in the production, and indications are that a large audience will enjoy the play.

Do Your Part in a Big Work

Have you notified the Associated Charities of your willingness to become a member of this important organization and to contribute at least a membership fee to its sustenance?

If not, get busy and do so.

It is now some weeks since the organization of this society, and people have had ample time to identify themselves with one of the best movements ever launched in Washington and the need of which has been felt for years.

There is no other organization which is of such predominant importance in the world of philanthropies as the Associated Charities.

There is no city, large or small, but has its deserving poor and it requires the systematic work of such an organization to provide for the sick and suffering upon the merits of the cases and with impartiality. Indiscriminate giving has proved its inefficiency again and again. Yet there are few people so unfeeling that they are not willing to do their part towards the relief of the sick or the aid of helpless little children, hungry and cold through no fault of their own.

Every one in the community owes it to those less fortunate to do what he is able in the way of practical help.

Today the first batch of a series of circular letters asking the support of the public went out from the Associated Charities board. Other batches will be sent out each day until the people are generally reached.

The movement is dependent upon financial support for its existence and must either be given up or financed by the people of the community.

The organization is composed of busy people and it is asking too much of them to urge a personal canvass. People ought to appreciate that the men and women who have answered the call to effect this organization are sacrificing time, ease and pleasure to the accomplishing of this splendid movement.

Realizing this, and that the few are saving the many hard work and much discomfort, the people at large ought to do their smaller part and let the society know at once of their willingness to contribute, at least the dollar which entitles to membership.

Even during the short time since its organization the Associated Charities board has had brought to its attention an appalling number of cases, where distress, poverty and illness are deserving of help. The comfortably housed and protected have little knowledge of the amount of suffering right in our own city.

The board is investigating the applications as they are received by the secretary so that those worthy will receive aid.

The one thing that the society needs to secure first and foremost is its one paid officer, a city nurse, who acts as secretary of the organization. The importance of securing a competent nurse cannot be over-rated. Her constant supervision and personal visits accurately informs the society in regard to the needy and enables much greater economy in management. It would be impossible to secure any one, no matter how much interested, to give such an amount of labor as this visiting, throughout the entire city, with no compensation for time and effort.

The nurse also is an important factor in keeping the city healthy. Her visits of inspection in the forlorn districts ferret out contagious diseases and bad conditions and do much to prevent the spread of epidemic and filth.

The nurse is too valuable an addition to the town to be reckoned in mere dollars and cents.

Do not make these philanthropic promoters of the Associated Charities the additional work of a personal canvas, but answer the letter you will receive with the response it deserves.

Prejudice Is the Handmaid of Error and Destroyer of Justice

By NATHAN STRAUS, Noted Merchant and Philanthropist

PREJUDICE is easy to create; it is hard to destroy. Sinister of wit, it is weak of wisdom. Its perceptions are false. It sees in darkness; it is blind in the light. It nurtures lies and rejects truth. It breeds hatred, it blasts sympathy. It rules those who give it life. IT IS A FRANKENSTEIN MONSTER, DOMINATING MILLIONS OF MEN. IT SITS BESIDE THE GATES OF LIFE AND TAKES TOLL OF ALL THAT PASS.

It is the conservator of all that reason would destroy—the destroyer of the works of justice. It is the handmaiden of error, the Nemesis of knowledge. It feeds fear and poisons hope. It lives by the law of the dead. It thrives upon the meat of yesterday. It sickens on the sustenance of today.

IT IS THE MONSTER OF THE MIND. IT POLLUTES THOUGHT, SERVES DESPAIR AND RAVISHES RIGHT. IT OFFENDS AGAINST FACT AND IS A STRANGER TO LOGIC. ITS SOOTHING IS IN SOPHISTRY. IT INVINES THE UNREAL AND WALKS IN THE WAY OF PHANTOMS. IT DRAINS THE POTIONS BREWED BY WITCHES OF THE BRAIN. IT IS A THING OF CHARMS AND AMULETS.

IT IS PREJUDICE!

Poetry For Today

LIFE WHAT WE MAKE IT.

Let's oftener talk of nobler deeds,
And rarer of the bad ones,
And sing about our happy days,
And not about the sad ones.
We were not made to fret and sigh,
And when grief sleeps to wake it
Bright happiness is standing by—
This life is what we make it.

Let's find the sunny side of men,
Or be believers in it;
A light there is in every soul
That takes the pains to win it.
Oh! there's a slumbering good in all,
And we perchance may wake it;
Our hands contain the magic wand;
This life is what we make it.

Then here's to those whose loving hearts
Shed light and joy about them!
Thanks be to them for countless gems
We ne'er had known without them.
Oh, this should be a happy world
To all who can partake it;
The fault's our own if it is not—
This life is what we make it.

SENATORS LODGE AND STONE IN SHARP DEBATE

Mexican Question Bobs Up In the Senate.

FORMER CRITICISES WILSON

Holds It All But Too Late For Uncle Sam to Adopt Any Policy Toward Mexico Other Than Military Occupation—Stone In a Vigorous Reply Takes Exceptions to the Statements of Lodge.

Washington, Jan. 7.—Mexican troubles were the subject of another sharp debate in the senate. Senator Lodge, ranking Republican member of the foreign relations committee, made a speech criticising the administration's attitude and declaring that it was all but too late for the American government to adopt any policy toward Mexico other than military occupation. This drew a vigorous reply from Senator Stone, chairman of the committee, who branded the Massachusetts senator's attack as a purely partisan outburst.

Senator Lodge reviewed the whole history of the disturbance in Mexico from the inception of the Madero revolution to the present strife between the Villa and Carranza factions, and declared that anarchy existed now. He insisted that the animosity of President Wilson against General Huerta had directed the course of the administration toward the southern republic, and that the failure of the president to mention Mexico in his last annual message to congress had left it to be presumed that he had no policy to advance now that Huerta is ousted and revolt and tumult reign across the border.

Senator Stone took exception to Mr. Lodge's statement that it was impossible to expect the organization of an orderly government in Mexico, and that anything looking to that end was an impossible dream. He sharply arraigned the Massachusetts senator for precipitating the discussion of the foreign relations of the United States at this time, when every possible effort was being made to keep the nation at peace while war raged in many parts of the world.

Senator Lodge had incorporated in his remarks a recent article by former President Roosevelt attacking the administration's Mexican policy and making mention of the religious persecution alleged to be in progress in Mexico. Senator Stone heatedly referred to the article as "a remarkable screed," in which the former president "sought to inject religious passions into our international relations."

Senator Borah read extracts from speeches by Senator Stone during the last Republican administration, remarking that the Missouri senator had completely changed his views with the change in party power.

AMERICAN WRITER DIES IN FRANCE

Paris, Jan. 7.—Clarence Stetson, an American writer, who formerly lived in New York, died near this city of a complication of diseases.

An Explanation.
The chairman of the program committee was embarrassed. After much choking he said:
"I am very sorry, ladies and gentlemen, I am very sorry indeed, gentlemen and ladies—it gives me deep regret, ladies and gentlemen, to be compelled, gentlemen and ladies, to come before you with an excursion; but, ladies and gentlemen, the lady who will sing next is not here. We suppose, gentlemen and ladies, that she has been providentially detained."—New York Post.

CONOVER IS GETTING BUSY

Columbus, Jan. 7.—Fluke in amending the tax commission law is responsible for the fuss between the Cox and Willis administrations over the tenure of office of Chris Pabst of Hamilton, who was reappointed a member of the state tax commission for a three year term Feb. 15, 1914, by Governor Cox. Democrats contend that confirmation is not required, while Republicans hold to the contrary.

Speaker Conover began making up his list of standing committees of the house. He pronounced wholly incorrect a published report that the announcement of the committees had been delayed in order to submit the list of chairmanships to Governor-elect Willis for his approval. He said he would consult with John F. Kramer, minority leader, about the assignment of Democratic members to committees, and would pay careful attention to the requests of the Republican members for committee appointments.

ACTON STILL IN PRISON
FACES MANY COMPLAINTS

Chas. Acton, charged with obtaining money under false pretense, is still in the county jail awaiting a hearing, which will probably take place Thursday evening or Friday.

Several new complaints have been lodged against the man. One is by a Sunnyside woman to whom Acton represented himself as a fruit dealer, and by the promise of a bushel of apples, obtained suppers for two, carrying the suppers away in a basket and never reappearing.

O. D. Marchant, of Elm street, also had a complaint against Acton who is alleged to have endeavored to swindle him.

What Others Say of Acton.

The following articles, giving an insight into Acton's life in Ross county is from Wednesday's Scioto Gazette:

"Well! Well! Here's our old friend, Charley Acton, in the lime-light again. This time Charley chose Washington C. H. as the scene of one of his fantastic operations.

"Time was when Charley played everything in Ross county from a lunacy charge, epilepsy, assault and battery, connubial disturbances, to schemes of high finance. He has been everywhere, from the work-

house to the asylum, sometimes going direct from one to the other; but he seems to have realized that he has played out his string in Ross county, and Fayette is being rapidly instructed in the idiosyncrasies of Charles.

"Charles was arrested in Washington C. H., this morning, charged with obtaining money under false pretenses. Tuesday Charles fixed up a letter, so the story goes, signed ostensibly by Mayor Coffey, of that city.

"This letter went on to set forth that Charles had had his home and household goods destroyed by fire, and he was left on the cold, cruel world with a war going on in Europe and Wilson in the White House, without any means of taking care of his family.

"He had succeeded in getting quite a little change in this manner and started out again today to make his appeal to other soft and tender-hearted citizens, when he ran afoul of the law, the Mayor having heard of the fake letter.

"Upon being searched, the police failed to find the letter, but Acton was held any way, and as this is the second time he has been before the Mayor there, it is dollars to doughnuts Charles will move out of Washington. Look out, Greenfield!"

JOHN MYERS
GOES TO THE
PENITENTIARY

Late Thursday afternoon John Myers, indicted for incest, was taken before Judge Carpenter in the Common Pleas court, and entered a plea of guilty to the charge against him, whereupon he was given a sentence of from one to ten years in the Ohio penitentiary, and will be taken to that institution Friday morning, in custody of Sheriff Henry Jones.

After entering a plea of guilty and asking mercy at the hands of the court, Myers stated that he wished to save the county the costs of a trial, and thought he had better plead guilty, "although I am innocent of the crime" he said.

He later said he was guilty, and after a lecture by Judge Carpenter in which the Judge stated that it was hard to believe that a man could become so degraded as Myers had become.

"I would like to see my children before I go" was all Myers said after he had been sentenced.

DRAWS PICTURE
OF UTTER MISERY

In his own forceful style, Irvin S. Cobb, writing in the Red Cross Magazine for January, tells of the misery he saw during his recent trip in the European war zone. Speaking of those made homeless and destitute by the war, he says in part:

"I saw them tramping aimlessly along wind-swept, rain-washed roads fleeing from burning and devastated villages. I saw them sleeping in open fields upon the miry earth with no cover and no shelter. I saw them herded together in the towns and cities from which many of them ultimately fled, existing God alone knows how. I saw them—ragged, furtive scarecrows—prowling in the shattered ruins of their houses, seeking salvage where there was no salvage to be found. I saw them living like the beasts of the field, upon such things as the beasts of the field would reject. I saw them standing in long lines waiting for their poor share of the dole of a charity which already was nearly exhausted. I saw their towns when hardly one stone stood upon another. I saw their abandoned farm lands where the harvests rotted in the furrows and the

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

fruit hung mildewed and ungathered upon the trees. I saw their cities where trade was dead and credit was a thing which no longer existed. I saw them staggering from weariness and from the weakness of hunger. I saw all these sights repeated and multiplied infinitely—yes, and magnified, too—but not once did I see a man or woman or even a child that wept or cried out."

The horrors of war as portrayed by Mr. Cobb are enough to startle a hardened criminal. He tells of seeing soldiers in tatters and streams of wounded pouring back from the front endlessly. It is a strictly neutral word picture he paints in the interest of humanity in the future.

BIBLE CLASS
BANQUET HELD
LAST NIGHT

Fifty members of the Men's Bible class of the Christian church, attended a sumptuous banquet in the Y. M. C. A. dining rooms Wednesday evening and heard a remarkable address delivered by the Rev. Boden, pastor of the Disciples of Christ church, of Nelsonville. The Rev. Boden was the guest of honor.

Within the past few years the Rev. Boden has come to be recognized as one of the most successful and powerful exponents of men's religious training in the country and his enormous bible class of 1,000 men in Nelsonville is probably the largest in the United States.

In his address Mr. Boden, in a very entertaining way, told how he succeeded in establishing his great class, outlined its work and purpose and mentioned some of the results being accomplished. He generously attributed the success of the work there to the assistance of his able body of church workers.

In discussing the methods employed in gaining membership Mr. Boden said: "We found that the best way to get a man to come to our class was to first accept his excuse and then take it away from him."

As an example he told of a certain man, now one of his staunchest workers, who repeatedly offered the excuse that his shoes were not polished. After accepting his excuse two or three times the worker designed to "get" him procured a box of shoe polish and took it to the man. Forced then to either accept the invitation or admit his falsehood he, as was found in most cases, chose the former.

It is probable that local organizations will adopt some of Mr. Boden's suggestions.

Third count—For driving a motor vehicle without the written consent of the owner, and in the absence of the owner.

Fourth count—For operating a motor vehicle without a chauffeur's license, and without legal authority.

CORONER'S FINDINGS
IMPLICATE HOWARD

Coroner C. A. Teeters has filed his report in connection with the murder of Nannie Bird, finding that the woman came to her death by a gunshot wound which was not self-inflicted.

The closing paragraph of the findings implicate William Howard as the murderer of the woman. The paragraph says:

"I find the wound was not self-inflicted, as no evidence of a weapon was found near the body—circumstantial evidence points toward William Howard as being the culprit who fired the weapon."

The costs to the county in examining into the affair, including the post-mortem, reaches nearly \$30.

RUSSIANS FORM ANOTHER ARMY

Take Offensive Against Germans
On East Prussian Border.

MLAWA IS THEIR OBJECTIVE

Germans Still Hammering at the Russian Line Drawn Across the Roads to Warsaw—Austrians Still Retreating Through the Carpathian Passes—Fierce Fighting in Western Zone of War.

London, Jan. 7.—The Russians, with all their other fronts to cover, have found another army with which to take the offensive against the German position at Mlawka, on the East Prussian frontier, and report the capture of a village on the road to that town.

The Germans still are hammering at the Russian line drawn directly across the roads to Warsaw from the west, but, it is reported, with less force behind them. In western Galicia, however, where they have reinforced the Russian line.

forced the Austrians, they have held up the Russian advance near Gorlice. The Russians continue to drive the Austrians through the snow covered passes of the Carpathians and out of Bukovina, and simultaneously are dealing in detail with the remnants of the Turkish armies in Transcaucasia, which are reported either to have routed or surrounded.

Fierce Battles in the West.

Apart from the Russian victory over the Turks in Transcaucasia, interest lies in the stubborn fight which the French and Germans are carrying on for the roads to Cernay and Muelhausen, in upper Alsace.

The battle in that region, which has been raging for a week, is described in a Berlin dispatch as the most violent of the war. The Germans succeeded in regaining one of the trenches which they had lost, but on the whole the French reports appear to show that the forces of France maintain their advantage, for every inch of which they had to fight, in many cases with the bayonet.

Along the rest of the western front the tide of battle continues to ebb and flow. On either side of Rheims, particularly to the east of that harassed city, according to reports, the French daily push their lines a few yards forward, while in the Argonne, where more hard fighting is going on, first the Germans and then the French report the capture of the others' entrenchments.

Another region where the French seemingly keep nibbling away at the German lines is in the Woevre, where the gains reported by them must have gone a long way toward rendering the Germans' long occupation of St. Mihiel on the Meuse less comfortable.

COLOMBIAN PACT LAID ON SHELF

Washington, Jan. 7.—The senate committee on foreign relations all but agreed that the Colombian treaty should go over from the present session to the future congress. This is the treaty which contains an expression of regret on account of the Panama revolution, which has been denounced by Colonel Roosevelt. Formal action was deferred until next week, but the sentiment of the committee after the meeting was that the treaty had no chance for consideration in this session. The question of hearing Colonel Roosevelt was discussed, but went over until next week. The senate in executive session took up the Nicaraguan treaty. It is the determination of the administration leaders to press the Nicaraguan pact persistently.

PEASANTS STARVING

London, Jan. 7.—Herbert C. Hoover, chairman of the American commission for relief in Belgium, returned to London from a tour of inspection of the work being done for the commission in Belgium. In a statement issued, Mr. Hoover said:

"An appalling situation has been presented to the commission with regard to the French peasantry in the valley of the Meuse, just south of the Belgian frontier, where there are 10,000 persons absolutely without food. Our investigation showed that a large number of deaths already had occurred there from starvation."

"Despite the shortness of the rations in Belgium our Belgian colleagues agreed that we must share the last crust with these people. We therefore sent them food out of our limited Belgian stores."

Mr. Hoover also issued a report on the commission's work in Belgium in which he says the organization for the distribution of food supplies is well on the road to completion. It is aided by 50,000 volunteer workmen, and there are only a few localities to which relief has not yet been extended. Mr. Hoover says there are in Belgium 1,400,000 destitute.

FRENCH REPORT SHOWS PROGRESS

Paris, Jan. 7.—The following communique was issued by the government: "The only noteworthy incidents which have been reported are the following: Heavy cannonading in the region of Zillibeke; we continue to hold our positions in the Argonne; our troops have progressed slightly in the woods at Hirzbach, near Altkirch."

SUSPECTED OF ISSUING PHONEY PASSPORTS

New York, Jan. 7.—A Hoboken saloonkeeper, whose establishment has long been a gathering place for sailors of the German ships, is likely to be drawn into the investigation of the alleged conspiracy to get German re-

servants back to their country by means of bogus passports. Since the beginning of the war and the consequent laying up of the German ships at their piers in Hoboken hundreds of sailors have been interned in that city. They spend the greater part of the time along the river front in the quaint little beer halls. The Hoboken man now being shadowed by agents from the department of justice is said to be the keeper of one of these places. He was one of Carl Rufoed's agents. It is said, and undertook to send a number of the sailors back to Germany on the passports secured by Rufoed.

72 PER CENT FAKE CAPITAL CHARGED

Chicago, Jan. 7.—Seventy-two per cent of fictitious capitalization and some rich fees marked the reorganization of the Chicago Great Western railroad, according to testimony adduced at the session of the board of arbitration which is seeking to adjust wage differences between western railroads and their engineers. The testimony came from W. J. Lauck, a statistician, who completed his second day as a witness.

BRYAN ASKS REPARATION

Washington, Jan. 2.—Representations are about to be made to the British government in the case of Walter Smith, who was killed, and Charles Dorsch, who was badly injured as a result of shots fired by Canadian soldiers on the international waters near Buffalo. The British government will be asked to punish the soldiers responsible for the incident and to award pecuniary reparation to the heirs of Smith and Dorsch, if he survives, and in the event of his death, to his heirs. This would indicate that the state department does not believe the casualties were altogether accidental. The Canadian coroner's jury held that the killing of Smith and the injury to Dorsch were accidental.

Dr. Wiley Prepares an Ideal Food Box For Starving Belgium

New Plan of Relief Suggested by Washington Woman—How You Can Aid the Stricken Little Sister of the World

By WILL IRWIN

MRS. JOSEPH DARLING DIRECTING THE PACKING OF IDEAL FOOD BOXES.

THIS is going to be a pretty hard winter in America. The war in Europe has disturbed business in every direction. We have a few hungry people ourselves. And yet Belgium, a brave little, thrifty little nation of 7,000,000 people, is going to starve to death this winter unless America feeds the Belgians. How are we going to take care both of our own and of the "stricken little sister of the world?"

A woman solved the problem. Mrs. Joseph Darling of Washington had been knitting stockings and scarfs for European war sufferers until it occurred to her that she might be using her brains as well as her fingers. She sat down forthwith and thought out the idea of "food boxes for Belgium." Mrs. Darling saw Dr. Harvey Wiley, who laid out the ideal food boxes for Belgian relief, and their plan has now been taken up by the woman's section of the commission for relief in Belgium, of which Mrs. Lindon Bates is chairman.

Dr. Wiley's box for Belgian adults, as slightly revised to get its weight inside the parcel post regulations, is as follows: Three No. 3 tins of beans, three No. 1 tins of pink Alaska salmon, one five-pound sack of rolled oats, one five-pound sack of yellow cornmeal, one five-pound sack of yellow split peas, one two-pound sack of granulated sugar, one three-pound sack of California prunes, one seven-pound sack of wheat flour, one one-pound sack of salt, one can opener, one box.

That, however, is only a guide to the kind of food which the Belgians need. It is intended mainly for such Americans as can afford to go and order boxes from the grocer. Belgium wants any kind of food which will stand ocean transportation, which excludes fresh fruit and vegetables.

The commission for relief in Belgium has arranged with the postoffice department to transmit all Belgian relief foodstuffs free of cost to the donor. If you put your name and address on the package and add the letter "R" the money expended for stamps will be refunded by the commission. The package should weigh not less than twenty pounds and not more than fifty.

CARRANZA'S MEN TO MOVE ON CAPITAL

Capture of City of Puebla Was a Notable Victory.

Washington, Jan. 7.—The capture by Carranza troops under General Obregon of the city of Puebla, between Vera Cruz and Mexico City, was a notable victory. Puebla was held by Zapata forces. Dispatches received at the state department confirmed the reports of victory received at Constitutional headquarters here. Following is the Carranza account of the fighting:

DRIVES AWAY HEADACHE

Rub Musterole on Forehead and Temples

A headache remedy without the dangers of "headache medicine." Relieves headache and that miserable feeling from cold or congestion. And it acts at once! MUSTEROLE is a clean, white ointment made with oil of mustard. Better than a mustard plaster and does not blister. Used only externally, and in no way can affect stomach and heart, as some internal medicines do.

Best for Sore Throat, Bronchitis, Croup, Stiff Neck, Asthma, Neuralgia, Congestion, Pleurisy, Rheumatism, Lumbago, all Pains and Aches of the Back & Joints, Sprains, Sore Muscles, Bruises, Chills, Frosted Feet, Colds of the Chest (it often prevents Pneumonia).

At your druggist's, in 25c and 50c jars, and a special large hospital size for \$2.50. Be sure you get the genuine MUSTEROLE. Refuse imitations—get what you ask for. The Musterole Company, Cleveland, Ohio.

"Forty field pieces were used in the shelling, and the withering fire soon had the defenders abandoning their most strongly fortified positions. The cavalry charged the defenders, corralling them in the center of the city. The entire garrison was made prisoners. Dead and wounded filled the streets when the loyalists entered the city, and the number was greatly augmented by sharp street fighting. It is believed, the rebels lost several thousand in killed and wounded. Five thousand or more were taken prisoners, with all arms, munitions and provisions. It is believed Mexico City is the next objective. General Obregon advised that he would attack the capital before the expiration of thirty days. The loss of Puebla helplessly cripples the rebels, all artillery being gone and their communications cut."

The taking of Puebla demonstrated military strength on the part of Carranza greater than that attributed to him here. It is now believed that the first chief is in a position to make the contest between him and Villa and Zapata a long struggle on the same proportion as the revolutions of the last four years. Consul Canada reported from Vera Cruz that much heavy fighting has been going on in that state, though at what points he did not say. Fourteen carloads of wounded were brought into Vera Cruz Jan. 4, and the statement was made that the Villa-Zapata forces had been defeated at points not named.

Conditions at Vera Cruz are very bad, Consul Canada reported, owing to the outbreak of an epidemic of black smallpox. The disease is believed to have been brought into the city by the Constitutional soldiers. It is spreading rapidly.

The Long Bamboo.

An Englishman was once rallying a native of India upon his facility in lying. The native at once replied: "Why, sahib, we are all more or less liars in my country, and if one tells a story another immediately caps it. There were two young men of my country who had a boasting match, and one said, 'My father is so rich and has so many horses that his stable is of such extent as to take a horse eleven months to go from one end stall to the other.' 'Shabash, brother,' replied the second boaster, 'that is very good. My father has a bamboo so long that he can sweep the clouds away with it when they obscure the sun in harvest time.' 'Hi, hi!' exclaimed the first. 'That is very wonderful, but, pray, brother, where does your father keep such a long bamboo?' 'Why, you stupid,' was the answer, 'in your father's stable, to be sure.'"

A LAND OF EXTREMES.

Peru's Violent Contrasts in Climate, Altitude and Scenery.

Were I to be exiled and confined for the rest of my life to one country I should choose Peru.

Here is every altitude, every climate, every scene. Coastal Peru is an Egypt, central Peru a Tibet, eastern Peru a Kongo country. The lifeless desert and the teeming jungle, the hottest lowlands and the bleakest high lands, heaven piercing peaks and rivers racing through canyons—all are of Peru.

Here one meets with the highest tiling, the highest mines, the highest steamboat navigation. The cruelest heatstroke flourishes two days in the saddle from noble cathedrals, and the bustling ports are counterpoised by secluded inland towns where the past lies miraculously preserved, like the mummy of the saint in a crypt.

In the year 2000, when the Tyrol and the Abruzzi, Dalmatia and Carinthia, have lost their old world character, travelers may be seeking the towns hidden away in the Andes—Cajamarca, Huancavelica, Andahuaylas and Ayacucho—for rare bits of lustrous medieval life unharmed by the breath of modernism.—From "South of Panama," by Edward Alsworth Ross, in Century Magazine.

Woman Fifty Years Old—Coughed More or Less Since Childhood—Found No Relief Until She Got Vinol.

Dayton, Ohio.—"I want everybody to know what Vinol has done for me. I am now fifty years old and ever since I was a young girl I have had a cough most of the time, and sick headaches which left me weak and with no desire for food.

"I took all kinds of medicines but nothing seemed to do me any good. Finally my druggist asked me to try Vinol, saying that if it did not help me he would refund my money. I felt so much better after taking one bottle I bought more. Now my cough is entirely cured. I have no more sick headaches. I have a good appetite and feel better than I ever did in my life, and I cannot recommend Vinol too highly."—Mrs. J. C. SCHNEIDER, Dayton, Ohio.

Vinol is not a secret nostrum, simply a combination of the medicinal elements found in cod livers, together with tonic iron, contains no oil and is delicious tasting. We ask every man or woman in this vicinity suffering from chronic coughs, colds or bronchitis, and every weak, run-down person to try Vinol. FOR A DIVORCE

A suit was filed in Probate court, Wednesday, in which Bessie Arnold seeks separation from Clyde Arnold, on the grounds of gross neglect of duty. Plaintiff is represented by Post and Reid.

Plaintiff claims that the defendant had been in the habit of remaining away from home until late into the night, and names Florence Mann as a co-respondent, stating that since January 2nd the defendant has deserted her, and has refused to live with her.

They were united in marriage July 26, 1899, and have two children. Plaintiff asks divorce and alimony, and that the defendant be enjoined from selling certain property in which she claims an interest.

The police claim that Arnold came near being arrested in this city a few nights ago, when, it is alleged, his wife found him under rather embarrassing circumstances.

TORPEDO BOAT DESTROYERS.

They Have Many Important Parts to Play in Naval Warfare.

Torpedo boat destroyers, as the name implies, were first built to engage the small torpedo boat, which had become a serious peril to the big battleships and large cruisers.

So serious was the menace that searchlights and rapid fire guns were regarded as unreliable for the protection of these big ships against this smaller craft. It was thus that the destroyer was born, and, with graduation, its duties were extended until they included all that was formerly done by the small torpedo boat, and much more besides.

It is a fact that the modern destroyer is three or even four times as large as one of the earlier type, which naturally renders it much more seaworthy and obviously increases its radius of action, seeing that it is capable of carrying much more fuel.

The objects of a modern torpedo boat destroyer flotilla are many. Perhaps the paramount duty of every vessel in the flotilla is to discharge its torpedoes should it get near enough, at the enemy's big battleships. But a very important office to fulfill is that of scouting, which comprises locating and reporting the position of the enemy.

Should the enemy make a night attack the destroyers are relied upon to locate and report the position of the attacking fleet's torpedo craft, as well as sink or drive them away before they can force an attack against the bigger battleships. London Telegraph.

FUNERAL SERVICES
HELD AT RESIDENCE

Rev. A. W. West, pastor of the First Baptist church, conducted an effective funeral service over all that was mortal of Mrs. Margaret Fogle, at the home of her son, Mr. Wm. Fogle, on South Fayette street, Wednesday afternoon.

A quartet, Mesdames Will Kidd, E. H. Burch, Rev. West and J. H. Hicks, sang.

The minister followed the reading of the memoir with a beautiful short address.

Among the large number of floral tributes there were special designs from the Daughters of Rebekah, the Imperial Degree Staff and Fayette Encampment, I. O. O. F., the W. R. C., the Wesley Mite Society, Neighbors of Sycamore and North street.

The interment was made in the Washington cemetery; the pall-bearers, Messrs. Sherman Bishop, W. A. Plyley, Frank McCormick and J. H. Hicks.

All of the close relatives were here for the funeral except the only sister, Mrs. Herman Rife, of Mattoon, Ill., who was detained by illness.

The house was filled with neighbors and friends.

Arms and the Woman.

"Did anybody ever see a one armed woman?" asked a gray headed man as he surveyed the afternoon parade. "I never did. Almost every day I meet one armed men, but I have yet to encounter a woman with that pitifully empty sleeve. Are there no women who have suffered that mutilation? If not, why not? And, if so, where are they? Yesterday I heard it argued that there was no cause for a woman to lose an arm; that women do not go to the wars and are not engaged in occupations that are likely to carry away a part of their body. But that reasoning is not sound. Many women work in mills and factories, and they are as liable to accidents in the streets and public conveyances as men. Frequently they figure in these accidents; but, although men in the same situation would lose an arm, women never do. What is the cause of their immunity?"—New York Globe.

Locating the Fire.

"Where was the fire in town last night?"
"I think it must have been the library."
"What makes you think that?"
"Well, I heard the smoke was issuing in volumes."—London Telegraph

OHIO WINTER SHOW

Inauguration Week, Columbus,
January 9 to 15.

To insure success for the first Ohio Winter Exposition, four big state associations have combined exhibits and programs. In union there is strength to any institution.

A large exhibit in each branch of the show is now assured. The Agricultural Commission has equipped the large central group of buildings with heat, light, toilets and other accommodations to be used by the following: State Horticultural society, State Corn Show association, State Dairyman's organization and the State Poultrymen's association.

The state of Ohio has resources and opportunities unknown to many of its own citizens. One part of the state knows too little of the other parts of Ohio. The Winter Show will be a medium of education, instruction and profit to those who will attend.

Each state association has arranged a splendid program, and some of the best talent in the country has been secured. The exhibits will be in place morning of Saturday, Jan. 9, 1915.
